Silke can explain and answer any question about the sequence of movement thanks to her intense studies and teaching experience for over 15 years.

In her teaching years she has successfully trained students ranging from complete Beginners to high class competitors as well as Professionals.

She trained in the European tradition in both Germany and England by World class champions including the founder of International Latin Dance Walter Laird (R.I.P).

Examples of her accomplishments include the 1998 Southwest Regional, San Francisco Open and California Professional International Latin Rising Star Championship and the 1998 International Grand Ball Professional Open International Latin Championship.
